BOXERS ARE AGAIN ACTIVE IN CHINA

Many Native Christians Killed in Sze Chuan Province.

AN OUTBREAK THREATENED

Minister Conger at Pekin Has Urged the Chinese Government to Act With Energy-Edicts Have Been Issued and Officials Removed

WASHINGTON, Sept. 18.—China is on the verge of another Boxer uprising, which may equal that of 1900, according to mail advices received at the State Department from Minister Conger, dated last month. The troubles appear to arise principally from extortionate taxation, combined with resentment against presence of missionaries.

Mr. Conger's first advice bears date of August 6, from Pekin, and he reports serious anti-foreign riots near Chentu in the province of Soe-Ch'uan, in which a number of native Christians had been massacred and chapels destroyed.

Mr. Conger appears to have acted with

energy on telegraphic complaints from Dr. Cauright, ar American medical missionary at Chen Tu, not only addressing the Chinese foreign office by letter, but calling there in person to impress upon the officials the importance of an immediate and effective action and finally succeeding in causing the removal of the local Chinese officials who failed repress the riots and preserve life and property.

Mr. Conger encloses with his report the communication that passed between himself, Dr. Canright and the foreign Under date of June 20th, from Chentu, Dr. Canright telegraphed: "Svechuan, repeating nineteen hundred. Chapel burned, ten Christians killed. Boxers multiplying; four months, officials taxed. Mr. Conger immediately telegraphed Dr. Canright to demand adequate tection for missionaries and the native Christians.

He also addressed a note to Prince Ching at the Foreign Office, stating that there were several American missionaries and many chapels and converts in Szechuan, and that it was necessary that im-mediate provision be taken to stamp out these troubles at their very inception In his answer Prince Ching enclosed a

topy of an imperial edict, saying:
"Such flerce and lawiess outbreaks
should certainly be quickly put down. They must on no account be allowed to spread. We command Kwei Chun to strictly order the troops to disperse the rebels and their followers; to seize the ringleaders and to punish them according to the rigor of the law, and so nip the

Another dispatch from the foreign office to Mr. Conger, dated July 3d, states that the Viceroy reported that the mis-sionary killed was a Chinese an that quite a number of leading Boxers had been captured and punished and a sharp lookout was being kept for those still at

Conger again had occasion to address the foreign office on July 39th, in-forming them that Dr. Canright had again reported that robberies and massa erer were occurring daily; that all were in great danger, and that he had de-manded protection in vain. The minister urged the foreign office to take more effective measures "in order to avoid the fearful responsibility of a further loss of life and property." The foreign ofice replied that several edicts had been is-sued directing the vicercy to suppress

A letter of later date from Minister Corger transmits two Imperial edicts, or-dering several changes among provincial officials as a result of the disturbances. The most important of the changes, Minister Conger states, is the removal of Kwei Chull as Viceroy of Sze Chuan province because of his failure to suppres vince because of his failure to suppress the recent serious disturbances in the territory under his jurisdiction.

Boxer Attack Falls (By Associated Press.)

(By Associated Press.)

PEKIN, Sept. 18.—The "Boxer" attack on Chen Tu Fu. Capital of Cze Chuan Province, in which 50,000 Boxers made inseffectual attempts to take the city, began September 15th. When the rebels endeavored to enter the city a conflict ensued. The attackers were driven back and the gates of the city were closed and guaraced by troops. Soldiers quelied the disorder within the city. Fourteen Boxer leaders and several other rebels were executed. A new viceroy and new military officials are now on their way to Cheng Tu Fu to assume charge there. The United Minister to China, Mr. Conger, and the French Minister are urging the Prince to take action toward subduling the Insurrection.

NO MORE HAY TO BALTIMORE

Embargo on Shipments Because of Congestion in Mount Clare Yards.

(Special Dispatch to The Times.) BALTIMORE, September 18.-The Baltimore and Ohio has laid an embargo on further shipments of hay to Baltimore over its lines. A notice to this effect was sent to the Chamber of Commerce to-day and no further consignments of hay for Baltimore will be received until the em-

bargo has been raised.

The reason for this is that the Mount Clare yards, which are the receiving point for hay here, are now filled to overflowing. Consignees have not re-moved it promptly, and the congestion makes a blockade to further traffic,
Larger quantities of hay have beer shipped to Baltimore this year than

OUTSIDE INTEREST

West Virginia Equitably and Morally Liable to Pay Her Share.

(Special Dispatch to The Times.) NEW YORK, September 18.—The Convention of the Virginia Debt Commission in Richmond to take up the matter with West Virginia of

that State's liabilities for the bonded debt assumed by Virginia before the creation of West Virginia, has awakened some interest in the outside public in regard to this long-standing matter. It now seems as if the Virginia Debt Commission would be in a position to act for two-thirds of the bonds referred to in the McCullowich act of 1878 have come the McCullough act of 1878 have come under the control of one firm, namely Messrs Brown Brothers & Company, of New York. This firm also controls a majority of the bonds referred to under the other acts of the Virginia Legisla-

the other acts of the Virginia Legislature in reference to this settlement;

It is therefore possible for the Debt Commission to act in accordance with the provisions of these acts. The idea that has been abroad in Wall Street that there was any requirement for the bonds, or any part of them, to be necessarily bought, is erroneous. The whole idea of the Virginia legislative acts was simply to insure a sufficient number of bonds being deposited in the hands of some one person or company to prevent any just contention being raised as to the terms upon which the settlement, if any, should he made. As a matter of fact, there are over one thousand different depositors on the books of Messrs. Brown Brothers & Co., many of whom are original holders from the first creation of the bonds. are original non-ers from the first creation of the bonds, and many more acquired their bonds prior to the act of 1878. An interesting legal question is raised in the minds of some lawyers as to what method the Debt Commission of Virginia can pursue in order to validate Virginia's claim for a proportionate settlement against West There seems to be, however no doubt that West Virginia is equitably and morally liable to pay her fair share of the indebtedness which was created largely for her benefit.

TALK LESS: DO MORE

Sound Advice of President of National Negro Baptist Convention.

(By Associated Press.) BIRMINGHAM, ALA., Sept. 18.-The feature of the morning session of the National Negro Baptist Convention was the report on foreign missions, which dwelt especially on the need of aggressive mission work in Africa, though the commission discountenanced the idea of American negroes moving to Africa to reside, and added that the American negro is in better condition than the negro in any other part of the world. In his address Rev. E. C. Morris, president of the convention, urged the negroes to talk less about what they are going to do and
